In vitro antioxidant activity of phenolic-enriched extracts from Zhangping Narcissus tea cake and their inhibition on growth and metastatic capacity of 4T1 murine breast cancer cells. *Journal of Zhejiang University-Science B (Biomedicine & Biotechnology)*, 19(3):199-210. <https://doi.org/10.1631/jzus.B1700162>

# **In vitro antioxidant activity of phenolic-enriched extracts from Zhangping Narcissus tea cake and their inhibition on growth and metastatic capacity of 4T1 murine breast cancer cells**

**Key words:** Oolong tea, Antioxidant activity, Metastasis, Cell cycle

# Research Summary

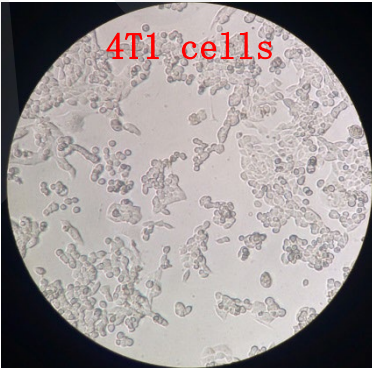

**Chemical composition**

**Tea extracts**

**Antioxidant activity**

- DPPH
- ABTS
- FRAP

- Proliferation
- Cell cycle
- Migration
- Invasion
